

# Student Code of Conduct

2024-2028

# Equity and Excellence in everything we do

Delivering a high equity, high quality early childhood and education system which provides a strong start for all children and supports every student to realise their potential.

Queensland Department of Education State Schools Strategy 2024-2028

## **Purpose**

The Columboola Environmental Education Centre Code of Conduct sets out the responsibilities and processes we use in our school to promote a productive, effective whole school approach to discipline.

Our strength is our commitment to providing a safe, respectful and disciplined learning environment for all students, staff, parents and visitors. Programs offered are designed to meet the specific needs of students from each visiting school and contribute toward powerful and valuable learning experiences. We do this through:

- Building students respect for "self, others and place";
- Developing a desire for deep understanding and lifelong learning;
- Preparing young people to become caring and reflective citizens;
- Supporting students to become actively involved in their school and broader community;
- Building students' confidence in their relationships with others;
- Developing student's physical, emotional and intellectual capabilities;
- Developing respect and empathy toward sustainable values and practices;
- Authentic learning experiences that link with key priorities and policies and curriculum;
- · Acquiring values supportive of their lifelong wellbeing.

Each staff member has responsibility to ensure there is progress toward these values for every student. Caring and responsible behaviour is integral in assuring a safe and respectful learning environment for all and protection for the environment.

# Whole School Approach to Discipline

Everyone brings their own sets of personal beliefs to a school community. These beliefs influence their decisions, behaviour and social practices. It is reasonable to expect that not everyone will share the same sets of beliefs, and this contributes to a richly diverse social environment in each school. It can also contribute to differences in expectations and force us to reflect on our own understanding of what we consider acceptable and unacceptable. We encourage any student or parent to make an appointment with the principal to discuss the model of behaviour support.

## **Multi-Tiered Systems of Support**

Columboola Environmental Education Centre uses multi-tiered systems of support (MTSS) as the foundation for our integrated approach to learning and behaviour. MTSS is a preventative, differentiated model grounded in practical strategies, targeted planning and data-informed decision-making. Based on a problem-solving model, in MTSS school staff match increasingly intensive interventions to the identified needs of individual students.

	Burning Burning
Tier	Prevention Description
1	<u>All students</u> (100%) in the school receive support for their academic and behavioural development. Focus is on the whole-school aspects of the Australian Curriculum in safe and supportive environments. This involves:
	<ul> <li>teaching behaviours in the setting they will be used</li> <li>being consistent when addressing challenging behaviour, while taking developmental norms and behavioural function into account</li> </ul>
2	Targeted instruction and supports for <b>some students</b> are more intense that Tier 1 services, providing more time and specialisation in services from a range of visiting school-based staff to enable students to meet the required academic and behavioural standards.
	Tier 2 supports build on the lessons provided at Tier 1, and may prevent the need for more intensive interventions. Tier 2 supports are provided to small groups of students with similar needs, offering more time and/or detailed instruction on the Australian Curriculum or particular aspects of Behaviour expectations. The types of interventions offered at this level will vary according to the needs of each school's student body, but all have certain things in common:
	<ul> <li>there is a clear connection between the skills taught in the interventions and the school-wide expectations</li> <li>interventions require little time of classroom teachers and are easy to sustain</li> <li>variations within each intervention are limited</li> <li>interventions have a good chance of working (e.g., they are "evidence-based" interventions that are matched to the student's need).</li> </ul>

Individualised services for <u>few students</u> who require the most intensive support a school can provide. These are usually delivered in very small groups or on an individual basis.

Tier 3 supports continue to build on the lessons and supports provided at Tiers 1 and 2, becoming more individualised and more intensive until teams can identify what is needed for a student to be successful. Tier 3 supports are based on the underlying reasons for a student's behaviour (their FBA) and should include strategies to:

- PREVENT problem behaviour
- TEACH the student an acceptable replacement behaviour
- REINFORCE the student's use of the replacement behaviour
- MINIMISE the payoff for problem behaviour

### **Consideration of Individual Circumstances**

Staff at Columboola EEC take into account students' individual circumstances, such as their behaviour history, disability, mental health and wellbeing, religious and cultural considerations, home environment and care arrangements when teaching expectations, responding to inappropriate behaviour or applying a disciplinary consequence.

In considering the individual circumstances of each student, we recognise that the way we teach, the support we provide and the way we respond to students will differ. This reflects the principle of equality, where every student is given the support they need to be successful. For example, some students need additional support to interpret or understand an expectation. Others may benefit from more opportunities to practise a required skill or behaviour. For a small number of students, the use of certain disciplinary consequences may be considered inappropriate or ineffective due to complex trauma or family circumstances. These are all matters that our teachers and principal consider with each individual student in both the instruction of behaviour and the response to behaviour.

Our teachers are also obliged by law to respect and protect the privacy of individual students, so while we understand the interest of other students, staff and parents to know what punishment another student might have received, we will not disclose or discuss this information with anyone but the student's family. This applies even if the behavioural incident, such as bullying, involves your child. You can be assured that school staff take all matters, such as bullying, very seriously and will address them appropriately. We expect that parents and students will respect the privacy of other students and families.

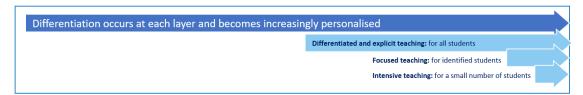

If you have concerns about the behaviour of another student at the school, or the way our staff have responded to their behaviour, please make an appointment with the principal to discuss the matter.

# **Differentiated and Explicit Teaching**

Columboola EEC is a disciplined school environment that provides differentiated teaching to respond to the learning needs of all students. This involves teaching expected behaviours and providing opportunities for students to practise these behaviours. Teachers reinforce expected behaviours, provide feedback and correction, and opportunities for practise.

Teachers at Columboola EEC vary what students are taught, how they are taught and how students can demonstrate what they know as part of this differentiated approach to behaviour. These decisions about differentiation are made in response to data and day-to-day monitoring that indicates the behavioural learning needs of students. This enables our teachers to purposefully plan a variety of ways to engage students; assist them to achieve the expected learning; and to demonstrate their learning.

There are three main layers to differentiation, as illustrated in the diagram below. This model is the same used for academic and pedagogical differentiation.

Columboola EEC try and work within the established frameworks and processes of our visiting schools as we find this provides less disruption to visiting student learning.

## **Focused Teaching**

Focused teaching involves revisiting key behavioural concepts and/or skills and using explicit and structured teaching strategies in particular aspects of a behaviour skill. Focused teaching provides students with more opportunities to practise skills and multiple opportunities to achieve the intended learning and expected behaviour. Columboola EEC work collaboratively with visiting school staff and regional support staff to provide focused teaching.

# **Intensive Teaching**

Intensive teaching involves frequent and explicit instruction, with individuals or in small groups, to develop mastery of basic behavioural concepts, skills and knowledge.

Some students may require intensive teaching for a short period, for particular behaviour skills. Other students may require intensive teaching for a more prolonged period. Decisions about the approach will be made on an individual basis and based on data collected from the visiting teacher or teachers, and following consultation with the visiting school.

# Legislative Delegations

## Legislation

In this section of the Columboola EEC Student Code of Conduct are links to legislation which influences form and content of Queensland state school discipline procedures.

- Anti-Discrimination Act 1991 (Qld)
- Child Protection Act 1999 (Qld)
- Commonwealth Disability Discrimination Act 1992
- Commonwealth Disability Standards for Education 2005
- Criminal Code Act 1899 (Qld)
- Education (General Provisions) Act 2006
- Education (General Provisions) Regulation 2017

- Human Rights Act 2019 (Qld)
- Information Privacy Act 2009 (Qld)
- Judicial Review Act 1991 (Qld)
- Right to Information Act 2009 (Qld)
- Police Powers and Responsibilities Act 2000 (Qld)
- Workplace Health and Safety Act 2011 (Qld)
- Workplace Health and Safety Regulation 2011 (Cwth)

## **Delegations**

Under the Education (General Provisions) Act 2006, state school principals are responsible for "controlling and regulating student discipline in the school".

Principals are afforded a number of **non-delegable powers** to assist them to meet this obligation, including the authority to suspend, exclude or cancel the enrolment of a student at the school. These decision-making responsibilities cannot be delegated to other staff in the school, such as deputy principals.

The details of these responsibilities are outlined in the legislative instruments of delegation and instruments of authorisation provided below:

- Education (General Provisions) Act 2006 Director-General's delegations
- Education (General Provisions) Act 2006 Minister's delegations
- Education (General Provisions) Act 2006 Director-General's authorisations
- Education (General Provisions) Regulation 2006 Minister's delegations
- Education (General Provisions) Regulation 2017 Director-General's delegations

# **Disciplinary Consequences**

The disciplinary consequences model used at Columboola Environmental Education Centre follows the same differentiated approach used in the proactive teaching and support of student behavioural expectations.

The majority of students will be confident and capable of meeting established expectations that are clear, explicitly taught and practised. In-class corrective feedback, sanctions and rule reminders may be used by teachers to respond to low-level or minor problem behaviours.

Some students will need additional support, time and opportunities to practise expected behaviours. A continued pattern of low-level behaviour can interfere with teaching and learning for the whole class, and a decision may be needed by the class teacher to refer the student to the school administration team immediately for determination of a disciplinary consequence.

For a small number of students, a high level of differentiated support or intensive teaching is required to enable them to meet the behavioural expectations. The determination of the need will be made by the principal in consultation with staff and other relevant stakeholders. On occasion the behaviour of a student may be so serious, such as causing harm to other students or to staff, that the principal may determine that an exclusion from further camp involvement is necessary as a consequence for the student's behaviour. Usually this course of action is only taken when the behaviour is either so serious as to warrant immediate removal of the student for the safety of others, and no other alternative discipline strategy is considered sufficient to deal with the problem behaviour. Exclusion of students from camp programs is completed in conjunction with the visiting school's staff members and Principal. The visiting school is required to arrange the logistical exclusion and liaise with the students caregivers.

The differentiated responses to problem behaviour can be organised into three tiers, with increasing intensity of support and consequences to address behaviour that endangers others or causes major, ongoing interference with class or school operations.

#### Differentiated

CEEC teacher/visiting teacher provides in-class or in-school disciplinary responses to low-level or minor problem behaviour. This may include:

- Pre-correction (e.g. "Remember, walk quietly to your seat")
- Non-verbal and visual cues (e.g. posters, hand gestures)
- Whole class practising of routines
- Ratio of 5 positive to 1 negative commentary or feedback to class
- Corrective feedback (e.g. "Hand up when you want to ask a question")
- Rule reminders (e.g. "When the bell goes, stay seated until I dismiss you")
- Explicit behavioural instructions (e.g. "Pick up your pencil")
- Proximity control
- Tactical ignoring of inappropriate behaviour (not student)
- · Revised seating plan and relocation of student/s

- Individual positive reinforcement for appropriate behaviour
- Class wide incentives
- Reminders of incentives or class goals
- Redirection
- Low voice and tone for individual instructions
- Give 30 second 'take-up' time for student/s to process instruction/s
- Reduce verbal language
- Break down tasks into smaller chunks
- Provide positive choice of task order (e.g. "Which one do you want to start with?")
- Prompt student to take a break or time away in class
- Model appropriate language, problem solving and verbalise thinking process (e.g. "I'm not sure what is the next step, who can help me?")
- Provide demonstration of expected behaviour
- Peer consequence (e.g. corrective feedback to influential peer demonstrating same problem behaviour)
- Private discussion with student about expected behaviour
- Reprimand for inappropriate behaviour
- Warning of more serious consequences (e.g. removal from classroom)

#### **Focussed**

CEEC teacher/ visiting teacher is supported by other school-based staff to address in-class problem behaviour. This may include:

- Individual student behaviour support strategies (e.g. Student behaviour plan)
- Targeted skills teaching in small group
- Detention
- Verbal Behavioural contract
- Counselling and guidance support where applicable
- Self-monitoring plan
- Stakeholder meeting with visiting staff members, parents and visiting school principal

#### Intensive

School leadership team work in consultation with Student Support Network to address persistent or ongoing serious problem behaviour. This may include:

- Removal of student from timetabled activities where serious problem behaviour is deemed to put students, staff or others at risk.
- Exclusion of a student from Columboola EEC programs for the duration of the camp.

## **School Policies**

## Temporary removal of student property

The removal of any property in a student's possession may be necessary to promote the caring, safe and supportive learning environment of the school, to maintain and foster mutual respect between all state school staff, students and visitors.

#### **Principal**

Ensures state school staff are aware of the responsibilities outlined in this procedure that must be followed when temporarily removing student property, including that:

- **consent is not required** to search school property such as lockers, bags, tents or laptops that are supplied to the student through the school.
- consent is required from the student or parent to open, examine or otherwise deal
  with the temporarily removed student property. For example, without the consent of
  the student or parent, principals or state school staff who temporarily remove a mobile
  phone from a student are not authorised to unlock the phone or to read, copy or
  delete messages stored on the phone.
- where there is suspicion that the student has a dangerous item (for example, a knife) in their school bag, principals or state school staff should seize the bag immediately and remove it from the student's access prior to seeking search consent or calling the police. Under no circumstances should the student be permitted to go into the bag themselves.
- under normal circumstances, principals and state school staff members are not permitted to search student property (e.g. a student's school bag) unless they have the consent of the student or their parent.
- under emergency circumstances only, such as a need to access an EpiPen for an anaphylactic emergency, principals or state school staff may need to search a student's property without the student's consent or the consent of the student's parents.
- principals or state school staff do not have the authority to search the person of a student, if a search is considered necessary the police should be called to make such a determination.

**Students** Must not bring property onto school grounds or other settings used by the school (e.g. camp, or sporting venues) that:

- is prohibited according to the school's Student Code of Conduct
- is illegal (e.g. drugs such as cannabis, ecstasy, or amphetamines)
- puts the safety or wellbeing of others at risk (e.g. knife, firearm, handcuffs, or replica firearms)
- does not preserve a caring, safe, supportive or productive learning environment (e.g. baton, nunchaku, or club)
- does not maintain and foster mutual respect (e.g. printed materials with offensive language or extremist propaganda).

Items removed from students whilst on camp under the direction of Columboola EEC staff will be given to the Visiting Schools Camp Organising Teachers. Students must collect their property as soon as possible when advised by the visiting principal or state school staff it is available for collection.

## Use of mobile phones and other devices by students

Digital literacy refers to the skills needed to live, learn and work in a society where communication and access to information is dominated by digital technologies like mobile phones. However, the benefits brought about through these diverse technologies can be easily overshadowed by deliberate misuse which harms others or disrupts learning. Columboola EEC may provide time within a program that allows students to use supplied hand-held digital technologies. Visiting students are encouraged not to bring hand held digital devices, including mobile phones on program.

#### Responsibilities

The responsibilities for students using mobile phones or other devices at school or during school activities, are outlined below.

It is acceptable for students at Columboola EEC to use hand held digital devices for:

- assigned class work and assignments set by teachers
- developing appropriate literacy, communication and information skills
- authoring text, artwork, audio and visual material for publication on the intranet or internet for educational purposes as supervised and approved by the visiting school
- conducting general research for school activities and projects
- communicating or collaborating with other students, teachers, parents or experts in relation to school work
- accessing online references such as dictionaries, encyclopaedias, etc.
- researching and learning through the department's eLearning environment

Whilst using these devices, students must:

- be courteous, considerate and respectful of others when using a mobile device
- switch off and place the mobile device out of sight during classes, before and after school, and during lunch breaks unless the device is being used in a teacher directed activity to enhance learning
- seek teacher's approval where they wish to use a mobile device under special circumstances.

It is unacceptable for students at Columboola Environmental Education Centre to:

- use a mobile phone or other devices in an unlawful manner
- use a mobile phone in technology-free designated spaces or times
- download, distribute or publish offensive messages or pictures
- use obscene, inflammatory, racist, discriminatory or derogatory language
- use language and/or threats of violence that may amount to bullying and/or harassment, or even stalking
- insult, harass or attack others or use obscene or abusive language
- deliberately waste printing and internet resources
- damage computers, printers or network equipment
- commit plagiarism or violate copyright laws
- ignore teacher directions for the use of social media, online email and internet chat
- send chain letters or spam email (junk mail)

- knowingly download viruses or any other programs capable of breaching the department's network security
- use in-phone cameras anywhere a normal camera would be considered inappropriate, such as in change rooms or toilets
- invade someone's privacy by recording personal conversations or daily activities and/or the further distribution (e.g. forwarding, texting, uploading, Bluetooth use etc.) of such material
- take into or use mobile devices at exams or during class assessment unless expressly permitted by school staff.

At all times students, while using ICT facilities and devices supplied by the school, will be required to act in line with the requirements of the Columboola EEC Student Code of Conduct. In addition students and their parents should:

- understand the responsibility and behaviour requirements (as outlined by the school)
   that come with accessing the department's ICT network facilities
- ensure they have the skills to report and discontinue access to harmful information if presented via the internet or email

#### be aware that:

- access to ICT facilities and devices provides valuable learning experiences for students and supports the school's teaching and learning programs
- the school is not responsible for safeguarding information stored by students on departmentally-owned student computers or mobile devices
- schools may remotely access departmentally-owned student computers or mobile devices for management purposes
- students who use a school's ICT facilities and devices in a manner that is not appropriate may be subject to disciplinary action by the school, which could include restricting network access
- despite internal departmental controls to manage content on the internet, illegal, dangerous or offensive information may be accessed or accidentally displayed
- teachers will always exercise their duty of care, but avoiding or reducing access to harmful information also requires responsible use by the student.
- Columboola EEC take no responsibility for the loss or damage of any personal ICT device that may occur whilst on program.

## Preventing and responding to bullying

Columboola EEC uses the <u>Australian Student Wellbeing Framework</u> to promote positive relationships and the wellbeing of all students, staff and visitors at the school.

Our staff know student learning is optimised when they feel connected to others and experience safe and trusting relationships. Students who feel secure are more likely to be active participants in their learning and to achieve better physical, emotional, social and educational outcomes. Teachers who feel valued and supported are more likely to engage positively with students and build stronger connections within the school community. Parents who are positively engaged with their child's education leads to improved student self-esteen.

attendance and behaviour at school. Enhancing the wellbeing of students and their educators delivers overall long-term social, health and economic benefits to the Australian community.

### 1. Leadership

Principals and school leaders playing an active role in building a positive learning environment where the whole school community feels included, connected, safe and respected.

## 2. Inclusion

All members of the school community actively participating in building a welcoming school culture that values diversity, and fosters positive, respectful relationships.

## 3. Student voice

Students actively participate in their own learning and wellbeing, feel connected and use their social and emotional skills to be respectful, resilient and safe.

#### 4. Partnerships

Families and communities collaborating as partners with the school to support student learning, safety and wellbeing.

## 5. Support

School staff, students and families sharing and cultivating an understanding of wellbeing and positive behaviour and how this supports effective teaching and learning.

## **Bullying**

The agreed national definition for Australian schools describes bullying as

- ongoing and deliberate misuse of power in relationships through repeated verbal, physical and/or social behaviour that intends to cause physical, social and/or psychological harm;
- involving an individual or a group misusing their power, or perceived power, over one or more persons who feel unable to stop it from happening;

- happening in person or online, via various digital platforms and devices and it can be
  obvious (overt) or hidden (covert). Bullying behaviour is repeated, or has the potential
  to be repeated, over time (for example, through sharing of digital records);
- having immediate, medium and long-term effects on those involved, including bystanders. Single incidents and conflict or fights between equals, whether in person or online, are not defined as bullying.

Behaviours that do not constitute bullying include:

- mutual arguments and disagreements (where there is no power imbalance)
- not liking someone or a single act of social rejection
- one-off acts of meanness or spite
- isolated incidents of aggression, intimidation or violence.

However, these conflicts are still considered serious and need to be addressed and resolved. At Columboola EEC our staff will work to quickly respond to any matters raised of this nature

# Columboola Environmental Education Centre - Bullying response flowchart for teachers

Please note these timelines may be adjusted depending on the unique circumstances and risk associated with each situation. This is at the professional judgment of the staff involved. Where possible, Columboola EEC will work with visiting schools to follow their schools response to bullying plan. Where one is not present Columboola EEC will enact the Bullying Response Flow Chart (appendix 1).

## Appropriate use of social media

Columboola EEC acknowledges the growing popularity of social media both as a communication and educational tool and supports its appropriate use. It also acknowledges the potential for damage to be caused (either directly or indirectly) to students, families and staff through the inappropriate use of social media. Students must understand they are responsible for the content they publish on social media platforms so it is important they understand what is expected of them while using social media.

Visiting teachers may choose to post updates on Camps based at Columboola EEC on the visiting schools facebook sites and associated webpages, ensuring that they follow their schools appropriate use of social media guidelines.

In an instance of cyberbullying Columboola EEC will refer all matters directly to the visiting school's teacher and their Principal. Visiting schools will enact procedures in line with their schools Cyberbullying Response Plan. Where one is not present Columboola EEC will enact the Cyberbullying Response Flow Chart (appendix 2).

# Restrictive Practices

In some very rare situations, where there is immediate risk of physical harm to the student or other people, and when all other alternative strategies have failed to reduce the risk, it may be necessary for staff to use restrictive practices. The use of restrictive practices will always be as a last resort, when there is no other available option for reducing immediate risk to the student, staff or other people. Restrictive practices are not used for punishment or as a disciplinary measure.

The department's <u>Restrictive practices procedure</u> is written with consideration for the protection of everyone's human rights, health, safety and welfare. There are six fundamental principles:

- Regard to the human rights of those students
- Safeguards students, staff and others from harm
- Ensures transparency and accountability
- Places importance on communication and consultation with parents and carers
- Maximises the opportunity for positive outcomes, and
- Aims to reduce or eliminate the use of restrictive practices.

Very rarely restrictive practices will be planned and visiting staff will employ, when necessary, pre-arranged strategies and methods (of physical restraint/ mechanical restraint/ clinical holding) which are based upon behaviour risk assessment or clinical health need and are recorded in advance. The use of planned strategies will only be where there is foreseeable immediate risk consistent with the Restrictive practices procedure.

Seclusion will not be used as a planned response and will only be used in serious circumstances for managing an unforeseeable situation in an emergency. It will be used for the shortest time possible and in a safe area that presents no additional foreseeable risk to the student. In such emergencies, a staff member will observe the student at all times and seclusion will cease as soon as possible.

Following the use of any restrictive practice, a focused review will help staff to understand how they responded to the risk in any incident that involved the use of a restrictive practice. Staff will consider whether there are other options for managing a similar situation in the future. This strategy works well for reducing the use of restrictive practices. **Any incidents of restrictive practices** will be recorded and reported in line with departmental procedures.

# **Critical Incidents**

It is important that all school staff have a consistent understanding of how to respond in emergencies involving student behaviour that seriously endangers the student or others. This consistency ensures that appropriate actions are taken to ensure that both students and staff are kept safe.

A critical incident is defined as an occurrence that is sudden, urgent, and usually unexpected, or an occasion requiring immediate action (e.g. in the community, on the road). The aim in these situations is to bring the behaviour of the student under rapid and safe control. It is not a time to try and to punish or discipline the student; it is a crisis management period only.

Staff should follow the documented plan for any student involved in regular critical incidents, which should be saved and available for staff to review in OneSchool/MyHR WHS site.

For unexpected critical incidents, staff should use basic defusing techniques:

- Avoid escalating the problem behaviour: Avoid shouting, cornering the student, moving
  into the student's space, touching or grabbing the student, sudden responses, sarcasm,
  becoming defensive, communicating anger and frustration through body language.
- Maintain calmness, respect and detachment: Model the behaviour you want students to adopt, stay calm and controlled, use a serious measured tone, choose your language carefully, avoid humiliating the student, be matter of fact and avoid responding emotionally.
- Approach the student in a non-threatening manner: Move slowly and deliberately toward the problem situation, speak privately to the student/s where possible, speak calmly and respectfully, minimise body language, keep a reasonable distance, establish eye level position, be brief, stay with the agenda, acknowledge cooperation, withdraw if the situation escalates.
- Follow through: If the student starts displaying the appropriate behaviour briefly acknowledge their choice and re-direct other students' attention towards their usual work/activity. If the student continues with the problem behaviour, then remind them of the expected school behaviour and identify consequences of continued unacceptable behaviour.

Debrief at an appropriate time when there is low risk of re-escalation, help the student to identify the sequence of events that led to the unacceptable behaviour, pinpoint decision moments during the sequence of events, evaluate decisions made, and identify acceptable decision options for future situations.

# **Appendix**

### Appendix 1 - Bullying response flowchart for teachers

#### Key contacts for students and parents to report bullying:

Level 1 - Visiting school teachers/Columboola

Level 2 - Columboola EEC Principal

Level 3 - Columboola EEC Principal and Visiting School Principal

First hour Listen

Day one

Document

- Provide a safe, quiet space to talk
- Reassure the student that you will listen to them
- Let them share their experience and feelings without interruption
  Engage visiting school staff. If you hold immediate concerns for the student's safety, let the

student know how you will address these. Immediate in this circumstance is where the staff member believes the student is likely to experience harm (from others or self) within the next 24 hours

- Support the visiting school staff member to ask the student for examples they have of the alleged bullying (e.g. hand written notes or screenshots)
- Write a record of your communication with the student
- Check back with the student to ensure you have the facts correct
- Visiting staff teacher to enter the record in OneSchool
- Notify visting school Principal the concern is being investigated

Day two Collect

- Assist visiting school staff to gather additional information from other students, staff or family if required
- · Review any previous reports or records for students involved
- · Make sure you can answer who, what, where, when and how
- Clarify information with student and check on their wellbeing

Day three Discuss

- With the visiting teachers, evaluate the information to determine if bullying has occurred or if another disciplinary matter is at issue. Engage visiting school Principal if deemed necessary.
- · Make a time to meet with the student to discuss next steps
- Ask the student what they believe will help address the situation
- · Agree to a plan of action and timeline for the student, parent and yourself

Day four Implement

- Visiting school teacher to Document the plan of action in OneSchool
- Complete all actions agreed with student and parent within agreed timeframes
- Monitor the student and check in regularly on their wellbeing
- Seek assistance from student support network if needed

### Appendix 2 - Cyberbullying Response flowchart for teachers

#### How to manage online incidents that impact your school

#### Student protection

If at any point the principal forms a reasonable suspicion that a student has been harmed or is at risk of harm, they have a responsibility to respond in accordance with the Student protection procedure.

#### **Explicit images**

If the investigation involves naked or explicit images of children, staff should not save, copy, forward or otherwise deal with the content, as per the Temporary removal of student property by school staff procedure. This includes onto OneSchool records. Refer to the investigative process outlined in 'Responding to incidents involving naked or explicit images of children' from the Online Incident management guidelines.

#### Help

Refer to the Online incident management guidelines for more details, or if assistance is required, contact the Cybersafety and Reputation Management (CSRM)team on 3034 5035 or Cybersafety.ReputationManagement@qed.qld.gov.au.

#### Does the online behaviour/incident negatively impact the good order and management of the school?

#### 1. Initiate an incident response

Start an incident management log (running sheet) which records times and dates of events, observations, tasks completed, persons involved and written conversational notes.

#### 2 Collect evidence

Gather and preserve any evidence of the online content or a potential unlawful online behaviour, where legally permissible. Confiscation of digital devices can only be done under the <a href="Temporary removal of student property by school staff">Temporary removal of student property by school staff</a> procedure.

#### 3. Is there a potential crime?

The Queensland Criminal Code contains several applicable sections for cyberbullying. A list of potential relevant criminal offences can be viewed at Appendix 3, and include:

- unlawful stalking
- computer hacking and misuse
- · possession, distribution and making child exploitation material
- fraud obtaining or dealing with identification information

personal information to law enforcement agencies procedure.

criminal defamation.

Inform the student's parent/s (and student if appropriate) of their options:

- Report the incident to an external agency such as police, Office of the eSafety Commissioner or the Australian Cybercrime Online Reporting Network.
- Report the online content/behaviour using the online tools provided by the website or app.

Principals may start contact with a law enforcement agency (LEA) by completing an LEA referral form, under the Disclosing personal information to law enforcement agencies procedure. Refer back to Step 3 to report potential crimes that do not negatively impact the good order of the school.

Principals may start contact with a law enforcement agency (LEA) by completing an LEA referral form. Information can be shared when reasonably satisfied the disclosure is necessary for the prevention, detection, investigation, prosecution or punishment of a criminal offence or to assist in averting a serious risk to the life, health or safety of a person or where the disclosure is in the public interest. For access to the relevant forms, refer to Disclosing

Principals may continue to investigate the matter for disciplinary purposes, subject to all laws and department procedures.

Content may not constitute a criminal offence requiring police involvement but it may negatively impact the good order and management of the school. Principals can take action for the online behaviour as outlined below.

#### 4. Take steps to remove the upsetting or inappropriate content

Request poster to remove, use online reporting tools or if assistance is required, contact the CSRM team.

### 5. Managing student behaviour

Where the online behaviours of students do negatively impact the good order and management of the school, the principal must take appropriate follow-up action. Where appropriate:

- take statutory disciplinary action to address cyberbullying:
- that occurs outside of school hours or school grounds that also negatively affects
  the good order and management of the school (e.g., where the conduct, threats,
  intimidation or abuse have created, or would likely create a risk of, substantial
  disruption within the school environment, or where the conduct, threats,
  intimidation or abuse has or might reach school premises);
- that is undertaken on or originating from school premises during school hours, or by means of use of school ICT, concerning other students, staff or members of the school community;
- OR use non-statutory options to deal with the matter, for example:
  - discussion with student's parents;
  - student mediation;apology;
  - ICT / mobile technology ban;
  - guidance referral.

#### 6. Student welfare

Regardless of whether or not the cyberbullying is a matter that must be dealt with by the school Principal as a disciplinary matter or by alternative means (see 5 above), Principals must consider and support the wellbeing of any student who is displaying apparent negative effects from cyberbullying, by means of offering the student guidance officer support.

#### 7. Recording the incident on OneSchool

If the incident was resolved at school-level, record details of the incident, as reported to the school and investigated through the incident management process, in the student's OneSchool behaviour record.
